

SPRING PLANTING CONTAINER EVENT

Containers are a lovely and interesting way to add color and texture to your living spaces. Here's your chance to get your container gardens growing and a great way to spend time with your girlfriends, family or just some me time! Bring in your containers (a non-breakable 14" or 16" container). You will fill your container with Thrillers, Spillers and Fillers! Tree Top Nursery will care for your newly potted containers until the threat of frost has passed. You will be amazed at how beautiful your containers will be when you pick them up! Don't have a container? Tree Top has a variety of containers for you to purchase.

**Saturday,
March 31
10 AM - 2 PM**

You can also plant up your own 12" hanging basket that day too. When you are done planting you can relax and sip on beverages and enjoy Hors D'oeuvres with your friends. Contact or email us to be on our container event email list, or give us a call to reserve your time - 320.352.6365
